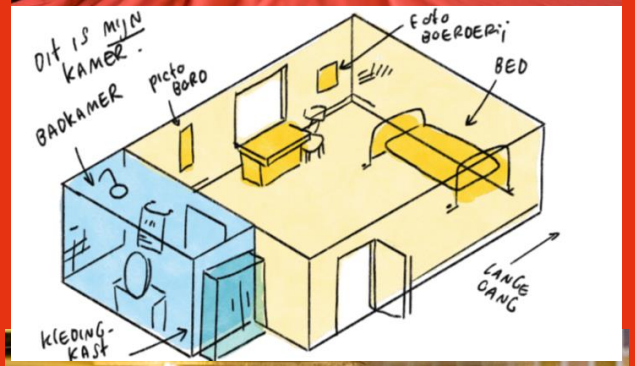
Healing environment

a fixed value in our care



Ipse de Bruggen
Andrea Möhn Architects

Welcome

Introduction

- Introducing the hosts;
- Information about the project, our vision;
- Our goals in transforming the environment of the client.

Part two:

Workshop: Healing Environment

Ipse de Bruggen

Ipse de Bruggen is one of the largest healthcare providers in **South Holland**. For more than a hundred years we have been there **for people with a (slight) intellectual or multiple disability**. They often have a complex care demand.

Introduction Andrea Möhn Architects

AM_A Andrea Möhn Architects is an international architectural firm based in Rotterdam with 23 years of designing bespoke high quality architecture with a focus on healthcare design.

The multidisciplinary approach in design, which is based on research and an extensive interaction with both clients and users of the buildings, has led to many innovative new concepts, resulting in numerous successful projects, publications and lectures.

The beginning

existing
situation

listening
+
observing

intuition

interpreting

to get behind the "secret":
WHO IS THIS PERSON?

design a
TAILORMADE
environment

PERSONALIZED and HUMANIZED environment

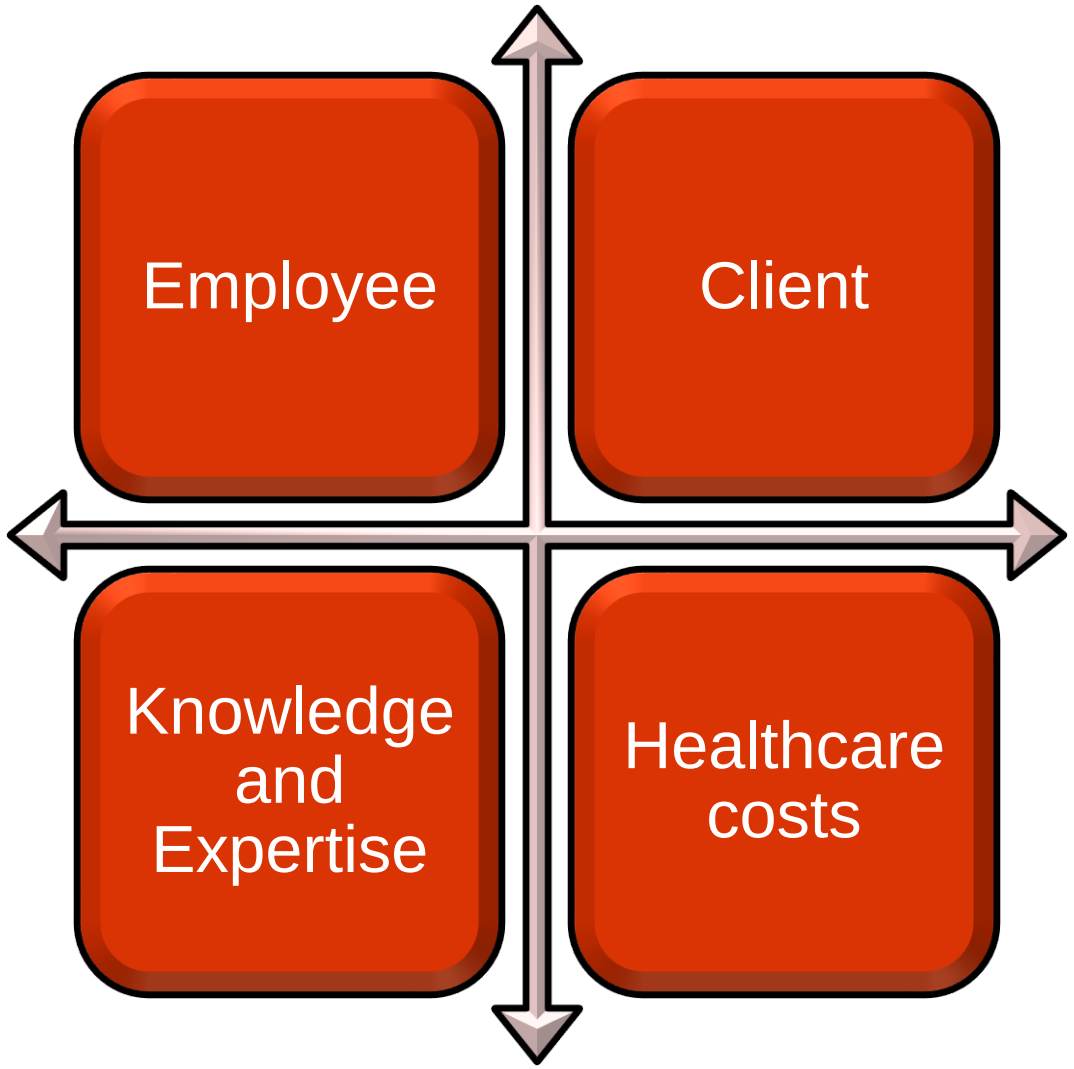
Benefit Model



Our goals

I. transforming rooms (living environments) of 12 vulnerable clients in a period of 4 years.

II. Conducting scientific research aimed at the development of evidence-based design model.

III. Unlocking a knowledge platform and a network about a healing psychial environment.

The process of transformation

- Using a guide
- Choice of client and case studies
- Partner at every part
- Developing Program of Requirements
- Make way for the designer
- Hang on to it
- Lessons Learned- Learning by doing
